CITY OF CAPE GIRARDEAU AWNING PERMIT APPLICATION INFORMATION SHEET

Please read this information sheet in its entirety.

Development Services recently launched digital plan review. To take advantage of this service, email your completed application form to eplans@cityofcape.org. You will receive email notification to upload the supporting documentation. No paper submittal is required, and only one set of plans will need to be printed after approval for the jobsite. For more information, visit www.cityofcape.org/eplans

If you choose to submit by paper, submit the following items to the Development Services Department for review. If you choose to submit digitally, only one digital version of each item is required. Vector-based PDFs are preferred:

- 1. Structural calculations
- 2. Construction plans including elevations and sections, indicating length and height of awning, length of building frontage where awning is proposed, type and quantity of fasteners required, clear height under the awning.

If the awning will include signage, such as lettering or a logo, provide dimensioned elevations of the proposed signage.

If the property is located in the Central Business District (CBD) zoning district, provide one set of the following for review:

- 1. Color samples, material samples, manufacturer's brochures, renderings, or similar items conveying the appearance of the proposed alteration.
- 2. Current photos of the building(s) or structure(s) to be altered.

Properties zoned CBD must comply with design standards to ensure buildings and structures are architecturally compatible with the unique character of the district.

If the awning will overhang public right-of-way, submit a license & indemnity agreement application form, available on the City's website.

Plans submitted shall detail complete compliance with City of Cape Girardeau Ordinance No. 4702, dated June 1, 2015, adopting the following model codes: 2015 International Building Code, 2015 International Fire Code, 2015 International Mechanical Code, 2015 International Fuel Gas Code, 2015 International Plumbing Code, 2014 National Electrical Code and 2009 International Energy Conservation Code in addition to other applicable City of Cape Girardeau Ordinances, as appropriate.

Plans for a new or enlarged awning shall be sealed, signed and dated by a Missouri registered design professional according to the Rules of the Missouri Board for Architects, Professional Engineers, Professional Land Surveyors and Landscape Architects 20 CSR 2030-3.010.

Submittals are subject to a minimum fifteen (15) business days review process. Plan Review will not begin before the completed permit application form is submitted. The client has the option of using the Plan Review Services of the International Code Council at their expense.
